

- Standart Diaphragm / Relative pressure measurement
- Air Compressor Applications
- EMC and Reverse polariton protection
- Analog output 4...20mA or 0...5VDC
- Standart ranges available from stock
From 1 BAR to 100BAR
- Cost Effective

Applications

- Air Compressor
- Cooling Units
- Test Equipments

BT-210 Technical Specifications	
Pressure Range	Relative pressure measurement From 1 BAR to 100 BAR different ranges
Output	4...20mA (2 Wire) , 0...5VDC (3 Wire)
Pressure connection	G1/4" male
Electrical Connection	Packard Connector
Power Supply	24VDC
Accuracy	%1 @ +25°C
Protection Class	IP65
Media Temperature	-40°C +80°C
Membran	Seramic
Housing Material	Stainless steel (304L)
Weight	60 gram

Socket Cable Color	Pin	Signal
RED	1	+24VDC Power Supply
BLACK	2	4...20mA Analog Out

Order Code

Model No

P T C - 2 0 - 1 6 B A R

Output

20 Series : 4-20mA
10 Series : 0-10VDC

Defined Pressure Range

From 1 BAR to 100 BAR
different ranges

Accessories :

Product socket fort he cable
socket ise supplied with 2 meter
cable
